Company Profile

REVE Systems started in 2003 with a focused approach to serve the IP based communication industry. A Telecommunication & Software Solution provider, REVE Systems has a wide assortment of products, ranging from backbone infrastructure to peripheral products, including middleware. The company today holds a leadership position in Mobile VoIP, Softswitch & Billing, Bandwidth Optimization and MVNO Solutions.

REVE Systems ensures the best returns on technology investments and strengthens the service providers' market presence by providing them with best-in-class VoIP solutions. A large team of experienced and well trained engineers help to provide 24x7 Platinum Level Support to its global client base and ensure that their services are always available to their end customers.

REVE Systems is a Symbian foundation member, part of the iPhone developer community and the Nokia developer forum. These provide it the first hand access to industry developments and help it to bring new products at the right time. The company makes decent investment in R&D activities to ensure technological efficiency for now and for the days ahead.

Headquartered in Singapore, REVE Systems has its major development centers in Bangladesh & India and branch offices in UK, USA, Russia and Hong Kong. The company serves customers in over 78 countries, where 2600+ VoIP and telecommunication service providers have placed their trust on it.

Recent Media Coverage on Product/Company

REVE Systems to display its latest innovation-“iTel Ultra Dialer” at CommunicAsia2015

May 31, 2015

REVE Systems, the leading IP Telephony software solution provider will exhibit its brand new VoIP Softphone “iTel Ultra Dialer” at CommunicAsia2015, which will be held from 2-5 June, 2015 at Marina Bay Sands, Singapore. The announcement was made by REVE Systems’ CEO- Mr. Ajmat Iqbal earlier this week.

Announcing the participation, Mr. Iqbal said, “We are quite excited to participate in CommunicAsia2015. We have been participating here since last 5 years. Such a great platform to meet experts in Communication & Information Technology from all around the world”.

He further added, iTel Ultra Dialer, our latest VoIP Softphone that we are going to display this time is the most unique VoIP Softphone ever created in the whole IP Telephony Industry. This incredible dialer enables VoIP at 5kbps only! Even in extremely low bandwidth areas, Service providers can offer smoothest voice without slightest delay to their customers. Moreover, due to the complete customizability option service providers will be able to have their branded dialer.

About CommunicAsia2015

CommunicAsia2015 from 2–5 June, 2015 is recognized as Asia’s largest integrated info-communications technology event. In this event a great number of local and international attendees will be present to connect and network throughout the 4 days. Trade attendees will be treated to an extensive display of innovative products and solutions across 3 levels of Marina Bay Sands, Singapore.

About REVE Systems

Founded in 2003, REVE Systems holds a leadership position in Mobile VoIP solutions, Softswitch and billing solutions, PIN-less calling card, Mobile top up and Callshop solutions. The company is RED Herring’s 2012 Top 100 Global Winner and has also received many awards for its Softswitch ‘iTel Switch which includes 2012 NGN Leadership Award and 2011 Unified Communication Excellence Award. Headquartered in Singapore, REVE has its major development center in Bangladesh and India, branch offices in USA, United Kingdom, Russia and HongKong. REVE Systems currently serves more than 2600 VoIP and telecommunication service providers in over 78 countries.

REVE Systems, a leading Bangladeshi multinational software company will provide technical support on 2 important projects of Bangladesh Government: NATIONAL ICT INFRA-NETWORK FOR BANGLADESH GOVT. PHASE-II (INFO SARKER). The Signing Ceremony was held last Wednesday at REVE Systems Bangladesh office. INFO SARKER Project Director, Saiful Islam and REVE Systems CEO, Ajmat Iqbal were present there to sign the agreement. Along with other guests the Group CEO of REVE Systems, M. Rezaul Hassan and Head-Global Sales of REVE Systems, Raihan Hossain were also present there.

INFO SARKER Projects are:

1. Intranet Communication Platform
2. Managing Violence against Women & Child

Following the signing ceremony, Mr. Saiful Islam said, "The implementation of both project will help establish an intra-network system among all Government Organizations of Bangladesh".

On the other hand Mr. Ajmat Iqbal said, "We are really proud to be a vital part of these projects. Not only is this a technically impressive project which will help us to set a new benchmark, it is also an important contribution to facilitate communication for Government Organizations throughout the whole country. In addition, it will contribute to prevent violence against Women & Child".

REVE Systems and INFO SARKER projects signing ceremony

About Info Sarkar

Info Sarkar has been initiated with a view to expand the government wide network to be established under Phase-I BanglaGovNet Project to all the District and Upazilla level offices throughout the country for improving government efficiency and promoting interaction between ministries/divisions, departments, districts and upazillas by construction of government ICT network infrastructure. In addition, to use ICT system within the public administration to improve efficiency, accountability and transparency, reduce wastage of resources, enhance planning and raise the quality of services. Its aim also includes maximization of the automation of work processes through integrated information management system utilizing National E-Service System (NESS).

REVE Systems wins Top Global Award - Selected in RED Herring's Top 100 Global

December 08, 2012

REVE Systems, the leading VoIP software solutions provider has announced today that it has received the prestigious 2012 Red Herring's Top 100 Global Award in Los Angeles. In the event, which took place from November 27 to 29 in Los Angeles, Red Herring announced its Top 100 award in recognition of the leading private companies from regional competitions in Europe, North America, and Asia. Red Herring Global has become a mark of distinction for the most promising young companies from around the world.

"Choosing the companies with the strongest potential was by no means a small feat," said Alex Vieux, publisher and CEO of Red Herring. "After rigorous contemplation and discussion, we narrowed our list down from hundreds of candidates across the Globe to the Top 100 Winners. We believe REVE Systems embodies the vision, drive and innovation that define a successful entrepreneurial venture. REVE Systems should be proud of its accomplishment, as the competition was the strongest it has ever been."

Group CEO M. Rezaul Hassan and Director Monnujan Nargis are receiving the the Red Herring Top 100 Global Award

The Red Herring Global 2012 forum witnessed participation from leading companies around the world, who have been the recipients of Red Herring's Top 100 regional awards in the current year. Renowned investors and CEOs of leading companies also addressed the forum. In these three days, the participants had a great experience of meeting and interacting with their peers.

The companies were evaluated by Red Herring's editorial staff on qualitative and quantitative grounds such as technology innovation, management quality, financial performance, strategy, and market penetration.

On receiving this award, REVE Systems CEO Mr. M. Rezaul Hassan said, "2012 Red Herring's Top 100 Global Award is a big achievement for us, which motivates us to adhere to our commitment of bringing innovation in the IP communication industry."

Red Herring is an international media organization which recognizes young companies and startup's technology innovations across the globe. The Red Herring's Global is a platform where the finalist companies from Europe, North America, and Asia compete for acquiring a place in the Red Herring's Top 100 Global list.
