

Internet Telephony magazine's 12th Annual Awards

Corporate

New Delhi, February 24, 2010

REVE Systems' iTel Mobile Dialer Express has been chosen as the Product of the Year 2009 by American magazine Internet Telephony from the TMC group.

iTel Mobile Dialer Express is a mobile application from the Singapore-headquartered VoIP platform provider REVE Systems that allows customers to make VoIP calls from their mobile handsets. iTel Mobile Dialer Express is the world's lightest dialer application with under 80 kilo bytes in size.

REVE Systems counts leading Internet Telephony Service providers amongst its customers.

"Internet Telephony is proud to present REVE Systems' dialer application iTel Mobile Dialer Express, the 2009 Product of the Year Award because of its proven quality and features while addressing real needs of the customers," said Rich Tehrani, CEO, TMC.

The easy-to-configure and use mobile application has been adopted by over 1200 service providers in more than 50 countries for their Mobile VoIP offerings. The application is fully customizable and is branded to suit every service provider's needs.

Leading VoIP service providers also use REVE's platform for providing mobile VoIP services to their customers. This application is compatible with all standard soft switches and can be used for making voice calls and sending SMS's over IP.

"Mobile VoIP is becoming the most preferred mode of origination of long distance voice calls and we believe that REVE's product has contributed to grow this category significantly in the last 12 months," said M. Rezaul Hassan, CEO of REVE Systems, while thanking TMC for their recognition of the iTel Mobile Dialer Express as the Product of the Year.

Added Hassan, "REVE Systems iTel Mobile Dialer Express platform has become the industry leader in the mobile VoIP segment and has helped many service providers around the world grow their minutes of usage and provide more choice to their consumers."

"We're happy to recognize and honour REVE Systems for their development of IP communications technology. We look forward to more innovative solutions from them in the future," Mr Tehrani added.

A complete list of Product of the Year winners is published in the February 2010 issue of Internet Telephony magazine (www.itmag.com). Internet Telephony has been the authority in IP communication since 1998.
