REVE Systems

ENTERPRISE COMMUNICATION APP

Secure Your Business Communication

Secure Communication App is a highly secure, uninterrupted, reliable and customized platform especially designed for enterprises. It helps to ensure faster yet real time business communication and collaboration. It creates a virtual office platform where team members can interact seamlessly no matter where they are. App is available in all major platforms like iOS, Android, Windows & even compatible with different web browsers.

WHY iTel SECURE COMMMUNICATION APP

Military Grade Security
Keep highly classified information secured and ensure maximum communication privacy with up to 1024-bit encryption.

On Premises Server Installation
Have complete control over the data stored in the application, implementation process and security policies on the database.

Usages in Controlled Environment
Users from defined domain only can register the application for any type of business usages.

White Label Branding
Extend your company branding through the app. Apart from the company general info, internal advertisement could be possible.

All Platforms Availability
Enjoy cross-platform support with multi-device availability on Android, Windows Phone, iOS, including mobile phones, tablets and PCs.

FOR WHOM

Banking & Financial Institutions

Government Agencies

Amy

Could you pleas |

SUCCESS STORY

Client
Information and Communication Technology (ICT) ministry, is one of the prominent ministries of Bangladesh Government.

Objective
Establishing a Secure Office Communication Channel among respective Cabinet members, Parliament members and Government officials as they were facing difficulties to trust third party apps like WhatsApp, Skype, Viber for media sharing, instant messaging, and confidential video calls in workplace.

Contribution of REVE Systems
REVE Systems developed Alapon, which is a secured communication platform for Bangladesh Government Officials featuring instant messaging (IM), audio/video calling, group chat/call, media sharing and location tracking apart from advanced directory service. Now Government Officials can communicate real time securely & effectively through the controlled network of Alapon.

Recognition
Alapon became an award winning solution in software innovation category of the country's biggest tech event "Digital World" in 2016.
