

Internet Telephony Magazine's Excellence Award-2010

IP Telephony 2010- Excellence awards announced| REVE Systems' iTel Mobile Dialer Express has been chosen as a recipient of the 2010 INTERNET TELEPHONY Excellence Award presented by Technology Marketing Company, USA.

Technology Marketing Company, USA, announced today that REVE Systems' *iTel Mobile Dialer Express* has been chosen as a recipient of the 2010 **INTERNET TELEPHONY Excellence Award** presented by **INTERNET TELEPHONY** magazine.

The *iTel Mobile Dialer Express* is a soft phone or dialer application which makes VoIP calls possible using a mobile phone connected with internet. The *iTel Mobile Dialer Express* has been the most preferred choice of communication by service providers. Presently, it is being offered by more than 1200 service providers to their customers across 50 countries.

The *iTel Mobile Dialer Express*, which is known as the lightest VoIP dialer in the industry, has also won 'Product of the Year 2009' award by Technology Marketing Corporation's Internet Telephony magazine.

Rejoicing the occasion, Mr. Hassan, CEO of REVE Systems said "*REVE Systems' iTel Mobile Dialer Express has become the industry leader in the mVoIP (mobile VoIP) and has helped many service providers around the world to grow their minutes of usage and provide more choice to their consumers.*"

With versatile customer base ranging from startups to large and established IP carriers, REVE Systems offers one stop IP telephony solutions to more than 1200 service providers across 50 countries.

"We have the pleasure of recognizing REVE Systems with a 2010 INTERNET TELEPHONY Excellence Award for proving their dedication and excellence in advancing IP communications" said Rich Tehrani, CEO of TMC.

"Mobile VoIP has become the most preferred and powerful mode of long distance voice calls by end users. We believe that REVE Systems' products have contributed to grow the Mobile VoIP industry in a very positive manner. The recent, 2010 INTERNET TELEPHONY Excellence award affirms REVE's contribution in development of global Mobile VoIP industry" stated Mr. Hassan.

"The editors of INTERNET TELEPHONY were pleased to grant REVE Systems with an INTERNET TELEPHONY Excellence Award for their achievements in advancing IP communications and providing genuine solutions in the marketplace. REVE Systems' flagship product 'iTel Mobile Dialer Express' has proven its outstanding contribution to IP communications and delivered winning solutions for its customers who are spread across 50+ countries," said Erik Linask, Group Editorial Director of INTERNET TELEPHONY.

"REVE Systems has been recognized with a 2010 INTERNET TELEPHONY Excellence Award

for proving their dedication and excellence in advancing IP communications,” stated Rich Tehrani, CEO, TMC.
